Description

Task Details

1.

2total_indexca_index

index

select ... for update, demo

```
<?php
// 
$pdo = new PDO("mysql:host=localhost;dbname=your_database", "username", "password");

try {
    // 
    $pdo->beginTransaction();

    // 
    $stmt = $pdo->prepare("SELECT MAX(key) AS max_key FROM order_table FOR UPDATE");
    $stmt->execute();
    $row = $stmt->fetch(PDO::FETCH_ASSOC);
    $maxKey = $row['max_key'];

    // 
    $newKey = $maxKey + 1;

    // 
    $stmt = $pdo->prepare("INSERT INTO order_table (key, ...) VALUES (?, ...)");
    $stmt->execute([$newKey, ...]); // 

    // 
    $pdo->commit();

    echo " " . $newKey;
} catch (Exception $e) {
    // 
    $pdo->rollBack();
    echo " " . $e->getMessage();
}
?>
```
