- Subject changed from A single word in the order name is too long, causing the content to overflow when printing the mark to v3.0: A single word in the order name is too long, causing the content to overflow when printing the mark
#2 - 10/11/2024 12:11 PM - Zhongbao Ye
- Status changed from to
- % Done changed from 0 to 100
Output(2024/10/11)
• Solution: Commit ID (OTS): 7b170c621d9732206e674d0aff4e63a7df3219ea Add css: overflow-wrap: anywhere; to `order-name-container` and `retailer-info-container` respectively to allow line breaks within words to prevent content overflow. protected/views/order/print.php
