- Subject changed from v3.0: When updating order status in batches, the update_time of the order table is not updated to v3.0: When updating orders in batches, the order update_date is not updated
- #2 - 10/11/2024 07:45 PM - Zhongbao Ye
- Output(2024/10/11)
- **Solution: Commit ID (OTS): f9a162b1af71c4e0e455de439004136ec6e73c8a**
When updating order products in batches, update the order update_time at the same time.
- Batch update order status = any order status
- Batch update order status = sent to retailer
- **Note:**
The order update time is not updated when deleting order products in batches

- Output(2024/10/14)

1. Bugfix: After batch updating orders, multiple sub-orders of the same order are not sorted together.
 - Reason: The default order sorting rule is: ORDER BY o.update_time DESC, op.update_time DESC.
When some sub-orders are updated in batches, the same orders cannot be sorted together.
 - Solution: Modify sorting rules:
Old: ORDER BY o.update_time DESC, op.update_time DESC
New: ORDER BY o.update_time DESC, op.order_id, op.update_time DESC
2. When updating orders in batches, only update the order once when updating order products in a loop.
